Shutdown of Business Unit Special Devices

Dear Sirs,

We inform you that, notwithstanding the effort purposed to find an alternative solution, Berco S.p.A., in line with the reorganization plan in force and with its strategy to focus on the core business, has decided to proceed with the shutdown of its Business Unit Special Devices and to definitively stop any activity of the relevant business.

The shutdown process will progressively occur in the course of the following weeks; each of you will be timely contacted in the course of the shutdown process in order to verify the status of your contractual position and to agree upon the next steps.

We will duly inform you if, during the course of the shutdown process, there will be updates or new decisions that may have an impact on your positions, respectively, as supplier.

Berco's suppliers department remains available for any further request of clarification.

Kind regards,

BERCO S.p.A.
Chief Executive Officer

Sven Arend

BERCO S.p.A.
Chief Financial Officer
